ciation.

A plan which it is asserted will bring about this result has been drafted by the two associations and will be presented at a hearing to be held in Washington Tuesday by the Federal Radio Control Commission. Preliminary assignment of six exclusive wave lengths to Canada, the association said, will take care of at least six major siations in the Dominion. In addition it was pointed out the Canadians for two years have shared time on twelve other wave lengths and it is proposed to add four channels to this number. It is said that these sixteen shared wave lengths will be ample to accommodate all of Canada's eighty-six stations under their existing powers. Urged to Raise Voices Against "New War"

Association of University Women in a telegram sent to President Coolidge by the San Francisco chapter of the organization. The action was taken after an address by Miss R. Benavle, a Y.W. C.A. worker who has just completed eight years of service for her organization in China. Explaining the sacrificial attitude of missionaries in China, the speaker recalled a petition sent to Washington by the missionaries about two years ago in which the United States was asked not to take up the oudgels should any of their number be killed.

Association of University Women aries, concentrated in Nanking University, were cut off from the river to read as for a muture and in the story:

"The southern (Cantonese) solders entered the city by the west, south and east gates and proceeded by degrees across the city to Hsia-Kuan (the port section of Nanking, where the northerners were hastily crossing the river to Pukow.

"By 6 o'clock Thursday morning the southern soldiers were entering foreign houses, swidently directed by those knowing Nanking.

"Experiences differed, but the general mission.

## MORE BLUEJACKETS LAND MOREIGNERS FOR SHANGHAI DEFENSE

#### Survivors From American Admiral Fears New Mob; Americans Rush "Situation Tense," He Cables; Japan Sends Fleet

WASHINGTON, March 27. (AP)-Additional American orces were landed at Shanghai today to ald in protecting the nternational settlement from threatened mob outbreaks.

The situation in Shanghai "is now very tense," Admiral C. 6. Williams, commander of the Asiatic Fleet, advised the Navy Department, and in expectancy of serious trouble the Japanese and British also have increased their forces ashore.

Dispatch of the reinforcements followed a demand of the general labor union that all barricades around the settlement be removed. Up to 4 o'clock this afternoon (Shanghai time,) when the message was sent, the demand, along with another of American and British was that striking public utilities workers be reinstated, had been vessels, an almost complete ignored by the municipal Council. car landing force from his firgship, the Pittsburgh, was to strengthen temporarily the allied defense. He did not disclose the identity or the numbers of the landing party.

RUSH BRITISH REGIMENT

AID ASKED IN HERO HONORS **RED DRIVE** Culifornian and Carolinian

WASHINGTON. March 27. (P)

To California and North Caro-lina goes the credit for send-ing forth two men who played heroic roles in Thursday's rescue of Americans and other foreigners at Nanking.

The men are Henry O. War-ren, quartermaster, third class, of Olin, N. C., and Dennie D. Taylor of Lincoln, Cal., both attached to the destroyer William B. Preston.

The two are described in

Shanghai dispatches as hav-ing distinguished themselves notably in the rescue. From a balcony on Socony Hill, ex-posed to Cantoness bullets they semaphored to the American warships offshore and, under instructions, gave the "be-gin firing" signals by flag and rocket. Constantly exposed to heavy fire they stuck to their posts until all of the be-leaguered party secaped.

\*\*\*\*\*\*\* on the Federal Express for Philadel-

on the Federal Express for Philadel-phia to join the regiment which will be sent to China to reinforce the American forces.

Naval officers here announced that twenty marines left the ammunition depot at Kingham for Philadelphia last night and that sixty-four from the Charlestown navy yard will "ahove off" tomorrow.

#### MASSACRE AT NANKING TOLD

p.m. "Help rendered by the Barred Swastika (equivalent to the Red Cross) in obtaining and paying for carriages and rikahas greatly facili-tated the evacuation."

OTHER FLIGHT The statement also covers the flight of another group from the United States Consulste to Socony Hill. This story is virtually the same as

States Consulate to Socony Hill. This story is virtually the same as that told in previous dispatches quoting Mrs. John K. Davis, wife of the American Consul.

It adds, however, that soldiers at the Consulate told Consul Davis, when he assured them that there was no ill-feeling between the Americans and Chinese, that "Americans are the same as other foreigners. They have got rich drinking the blood of the Chinese, and they will be killed."

"The destroyers' bombardment," the statement added, "instead of causing further loss of life in Nanking, was the direct means of rescuing the rest of the foreigners in the city."

Immediately after the firing began, bugics sounded throughout the city. Calling off the marsuding southern soldiers and the locting and burning of foreign property ocased. Shortly afterward, southern officials appeared at the river side under a flag of truce and asked conveyance to the warships. Evidently they realized the gravity of the situation and were willing to arrange for evacuation of the remaining foreigners. SAVED COLLEGE

## **VOUNG PLAN KEY BILL DUE** FOR FINAL ACTION TODAY

Reorganization Measure Creating Governor's Council Listed on Senate Calendar

SACRAMENTO, March 27. (A)-Final action on the keyone measure of Gov. Young's plan for reorganization of State departments, is on the Senate calendar for tomorrow. It is Assembly Bill No. 1112, prepared by the State Board of Control, providing for creation of the Governor's council.

INDUSTRIAL RELATIONS

The Council would consist of nine-be fixed by the director with apmembers, directors of as many departments, some of which are new justing switching positions, some merely switching positions, with salary increases and other positions with salary increases and other positions.

ons with salary increase and othpositions already in existence,
collective salary of the Counwould be \$57,000 per year.

It would consist of the followincrease of public works, \$10,000
ear.

Director of public works, \$10,000
ear.

Director of public health, \$6000
ear.

Director of natural resources, \$6000
ear.

Director of industrial relations,
00 a year.

Director of institutions. \$5000 a year.

Director of education, \$5000 a year.

Director of social welfare, \$5000 a year.

Director of education, \$5000 a year.

Director of director and divisions of industrial accidents and safety, housing and sanitation, \$1000 a year.

Director of education, \$5000 a year.

Director of education, \$5000 a year.

Director of director and administered by a delivation of industrial accidents and safety, housing and sanitation, \$1000 a year.

CENTRALIZED CONTROL

by the terms of the follow
The Department of industrial relations that the director industrial accident Commission with an in
crease in salary from \$5000 to \$6000.

The department of industrial relations, the provides that the director industrial accident Commission with an in
crease in salary from \$5000 to \$6000.

The department of industrial relations, the chairman of the Industrial accident Commission with an in
crease in salary from \$5000 to \$6000.

The divisions of industrial accidents and invision of industrial welfare.

The department of industrial relations, the chairman of the Assembly.

The department of industrial relations, the chairman of the Industrial velocity from \$5000 to \$6000.

The department of industrial relations, the chairman of the Industrial velocity from \$5000 to \$6000.

The department of industrial relations of industrial accidents and invision of industrial accidents and

thus centralized.

Organization of the various departments are provided for in other measures now before the Legialature.

The directors of public works, public health, natural resources and social welfare are new positions. The director of finance takes over a position now in the Board of Control, raising the salary from \$5000 to \$10,000 as year. The department of finance reorganization bill, Assembly Bill No. 1113, is now on third reading file of the Assembly to send it to the Senate. On its face it would permit reduction of the board of controller. On the face it would permit reduction of the board of control of the director of finance, and including as the third the State Controller. However, it empowers the director of the department to create such other divisions within his department as he deems necessary and provides that chiefs of divisions shall receive \$5000 per year. The motor vehicles division is brought within the change in compensation for its chief from \$5000 per year.

ment of finance, with ne change in compensation for its chief from \$8000 per year.

NEW JOB CHEATED

The Department of Public Works reorganization measure, Assembly Bill No. 1119, likewise is on third reading file of the lower house ready for passage to the Senate. This creates a new \$10,000 a year job of director, which now is held ex-officid by the State engineer, Paul Bailey, with a salary of \$5000. a year. Four divisions within this department would be engineering and irrigation, the chief of which shall be the State engineer at \$5000 a year. Four divisions within this department would be engineering and irrigation, the chief of which shall be the State engineer at \$5000 a year set rights, the chief receiving \$5000 a year as at present; highways with the chief being the highway engineer at \$10,000 a year as at present, and the division of architecture presided over by the State architect with increase of calary from \$4500 a year to \$5000.

The department of natural resources bill, Assembly Bill No. 1178, has passed the Assembly and is on the third reading file of the Senate ready for final passage to the Governor. This creates the new position of director at \$6000 per year. Four divisions of this department are provided. ## SILENT PLANE PERFECTED

French Air Service Soon to Have Machines in Use; New Paint Makes Them Invisible at Night

[Copyright, 1937, by New York Times]

PARIS, March 27. (Exclusive)—Silent airplanes, painted the color of night, which can neither be heard nor seen after dark, soon will be the practical accomplishment of the French aviation service, it was reliably stated today. Several other nations are working along the same lines, but haven't yet succeeded.

Becent experiments with new wonderful silencers demonstrated that the airplane could not be heard a distance of 300 feet from the ground. Within a short time, absolutely silent airplanes will feature the French aviation service, according to the same lines.

BRITTEN'S MOTHER DIES

TROLLEY RIDER INJURNO BAN FRANCISCO, March 27. (#)—A trolley car crashed into a cable car at Twenty-fourth and Castra streets crossing last night, critically injuring Lucille Goursal, 22 years of age.

PANAMA, March 27. (A)—Vice-President Daws and members of his party left last night for Pearl Is-land on the Gulf of Panams for some deep-sea fashing. Gem. Dawss was the guest of honor at a recep-tion given yesterday by the Ameri-can Minister and attended by lead-ing personages in istimatan social and political circles. President Chiari will give a banquet in his bonor to-morrow.

TOWEL TREFTS

BERLIN, March 27. (P)—The Pederal Rallways administration is in a quandary as to what to do to prevent the theft of towels from train washrooms. Though the size of the cotton towels has been reduced from time to time until they are just about large enough te dry a pair of hands, more than 1,100,000 are appropriated each year by passengers. Cerman travelers have a violent dislike for paper towels, which are extremely rare.

# OF ASTRONOMY

Declares It to be Study of Receding Horizons

Many Stellar Systems Found Existing in Space

nent can easily be arranged.

A lien Committee

WASHINGTON, March 27. (Ap.—Betore desired with fixed stars, lay beyond the planets, 80,00,000 miles from the Earth. Freeently this barrier fall before the assaults of modern selections, for the stars came to be accepted as far-away sums, scattered throughout the depths of space. Now it is realized that the stars them selection of sums in the authority of the committee and throughout the depths of space. Now will some administration committee and throughout the depths of space. Now will some administration committee and throughout the depths of space. Now will some administration of sapirov declaration definite system at least 100,000 light-years in diameter, itself but one of many stellar systems existing in space.

MILKY WAY SYSTEM

This system of stars, of which our sun and its planets are constituents, is known as the Galactic System, or the system of the Milky Way. Astronomers regard it as having definite limits. They picture it as of the form of a thin watch having a thickness of about one-signify of the significant place in space, it would look much like spiral nebulas look to us. The study of this system and its constituent stars has become the committee. The property and wisdom of it, on all property and wisdom of it, on all properties and the full way to be constituent of a star and containing myriads of stars in-visible to the naked eye. Some think it is a great spiral structure and that to an observer standing as a far-distant place in space, it would look much like spiral nebulas look to us. The study of this system and its constituent stars has become the committee to met, but a question of the property and wisdom of it, on all like spiral nebulas look to us. The study of this system and its constituent stars has become the committee. The property and wisdom of it, on all like spiral nebulas look to us. The study of this system and its constituent stars has become the committee. The property and wisdom of it, on all like spiral nebulas look to us. The study of this system and its

manning reasure of astronomical re-search.

In speaking of the point now reached in the enlarging conception of the universe, Doctor Hubble esid: "The Galactic System, of which our sun is a member, is a flattened swarm of stars. It is quite isolated in space, but men have long supposed that beyond its borders there must be other systems of the same general order of size, separated from one an-other by immense distances. The spirals and other small symmetrical nebulas were seized upon as visible evidence, and upon them was con-structed the grand theory of "island universes."

structed the grand theory of 'island universes.'

"Recently the great islessopes of modern astronomy have established the reality of this theory. Several of the most conspicuous spirals and irregular nebulae have been partially resolved into swarms of actual stars. Among these stars various types have been recognized which are well known in our own system, such as Novae. Cepheid variables, and Bitu-Helium stars, all brillians giants. Assuming that their actual brightness is the same as stars of the same type in our own system, we are able to determine how far they are away by comparing their apparent brightness with what we believe to be their actual brightness."

LIMITS OF VISIBLE SPACE Through the application of new and powerful methods of exploring space, methods which themselves are among the brilliant achievements of modern astronomy. It is disclosed that the half-dozen nebulas which modern astronomy, it is disclosed that the half-dosen nebulse which are nearest the Galactic System, including in this number the Magailanic Clouds, a mass of stars and nebulse in the southern hemisphere which look like a detached part of the Milky way, are at distances ranging from 100,00° to 1,000,000 light-years. Their diameters wary from 4000 to 65,000 light-years and their actual brightness, from 20,000,000 to 1,000,000,000 to 1,000,000,000 these that of our sun. <del>\*\*\*\*</del>

# BALLOON HOPPING LONDON SPORT

Famous Novelist Warns Devo-tees Not to Jump Too Madly During Trials

LONDON, March 27. (A)—The new sport of balloon jumping has interested Sir A. Conan Doyle who conceived the idea some years ago of using small balloons of hydrogen knapsack balloons of hydrogen knapsacks as an aid to pedestrians.

Sir Arthur says "I feel that too much should not be st-tempted. If the margin between the man's weight and the lifting power is only a few pounds. and huge leaps are made it will mean a loss of control and be the cause of many accidents. What is needed is to turn the stone man into a five-sione man, so that he can go on his way swiftly and without fatigue. Metter thirty foot strides under control than 100yard springs where one may be the sport of puffs of wind or \*\*\*\*\*\*\*\*

# PARIS SHOOTING TONGS PUFF

Seriously Wounded

Act of Titled Woman Traced to Love-Pact Break

Tragedy at Parting Sequel to Two-Year Affair

PARIS, March 27. (P)-Despair PARIS, March 27. (P)—Despair over the ending fo a love affair of two years' standing is believed to have armed the hand of the beautiful young American-born Countess Alice De Janze, who yesterday shot development of the two secret so-cieties.

Chinatown heard the news soon afterward and rejoiced. For the last few days the orientals had lived in the contraction muricants of the statement of the noter in the noter remission after a length of the noter in the noter remission after a length of the noter in the noter remission after a length of the noter remission and the noter have armed the hand of the beautiful young American-born Countess Alice De Janze, who yesterday shot Raymond Vincent De Trafford, son of a wealthy and prominent English family, and then wounded herself.

Both were still in such a serious condition tonight that the police were unable to question them. They are in the Laroboisiere Hospital, in a poor quarter of Paris, where operations were performed for removal of the bullets. Their lives depended, the surgeons said, upon what reaction their youth and strength were able to make against the wounds. Each is 27 years of age.

The Countess was formerly Alice Silverthorne of Buffalo, N. Y., and a niece of Mrs. Francis E. May of Chicago, who is a cousin of J. Ogden Armour. The Count has frequently visited the United States, engaging in motocycle racing at Indianapolistley were married at Chicago in September, 1921.

EX-ARMY OFFICER

DE TRAFOR (In the Youngest senter)

EX-ARMY OFFICER

EX-ARMY OFFICER

De Trafford is the youngest zon of Sir Humphrey Francis De Trafford, well known in British sporting circles, and was formerly a lieutenant in the noted Coldstream Guards, now on duty in Chins.

The Countess seemed devoted to her husband until about two years ago, when he took her on a hunting and exploring trip to Kenya colony, in British East Africs. There ahe met young De Trafford, who had just finished his Cambridge course after serving in the army during the World War.

The Count's prolonged absences on his hunting excursions threw the Countess and the young Englishman into each other's company, and what at first seemed a mild fiirtation developed, friends say, into real attachment.

Finally the Count returned from

veloped, friends say, into real attachment.

Finally the Count returned from one of his trips, to find his wife and De Trafford gone. He returned to Paris within a few weeks, but made no effort to see the Countess, and then went back to Kenya Later he started divorce proceedings, asking for the custody of their son and daughtar.

daughter.

The Countess and her asserted lover lived together in Paris and London. traveled extensively and went to Africa at the end of last year. They returned to Paris six weeks ago. LOVE PLAME SPUTTERS

De Trafford's ardour began show-ing signs of cooling under his fami-ly's disappreval, and he went to Lon-don, leaving the Countess in Paris. She stayed, at an spartment which her mother-in-law, the Dowager Countess de Janse placed at her dis-rosal

Countess de Janse placed at her disposal.

For the last two weeks the Countess had lived in a most retired fashion, served only by a cook and chambermaid. Then, on Friday, De Trafford came over from London The
pair spent part of the evening together, and the Countess returned to
her apartment alone.

When she arose on Saturday, her
maid noted that rhe was extremely
agitated, her face betraying deep
emotion. De Trafford cailed for her
at 2 o'clock in the afternoon, and
she accompanied him to the rallway
station in a taxicab.

she accompanied him to the railway station in a taxicab.

It is thought that during the ride he broke the news to her that his family insisted upon the ending of

SHOOTING ADMITTED

# SAN FRANCISCO. March 27. (Exclusive)—Percy Hays, 17 years of age, of Stockton, was so cruelly clawed and bitten by one of the cinnamon bears at Golden Gate Park this morning that it is not yet certain he will survive. The young man's face, neck and shoulders were clawed to ribbons and one eye was gouged out. With three companions, all about the same age, Hays was visiting and in roaming through the park they stopped to feed lumps of brown sugar to the caged bears. One of the lumps to the caged bears. One of the bears. Hays went after it. As he stooped, the shagey cinnamon clutched him with one claw, drew him in tight against the guard rail and proceeded to bite and lacerate. Hays was unconscious before his companions beat of the beart with sticks and stones. GREAT PALLS (Mont.) March

GREAT FALLS (Mont.) March 27. (A)—Testifying at her hearing for temporary alimony of \$1500 a month from L. C. Stevenson, wealthy oil operator, pending his divorce action against her, Mrs. Stevenson said "I have to have a little drink once in a while and that costs, \$10 a day."

in a while and that costs, \$10 a day."

She made the statement during cross-examination and her husband's attorney asked:

"Do yor mean booze? Whisky?"

"Yes, sure," Mrs. Stevenson replied. The district coundtroom audience tittered and she used her smelling saits.

"Do you drink that amount a day yourself?" asked the opposing lawyer.

tional Industrial Conference Board, made public today. The last esti-mate made was the census estimate of 1922, when it was calculated at 8320,080,000,000. In 1912 the census estimate of the national wealth was \$186,030,000,000 yer.

"Yes, sure! Sometimes my husband comes up to my room in the hotel and helps me. He always gave me that rutch to drink when we were living together at home and I need!" now."

# MADE ISSUE

CHICAGO, March 27. (P)—King George of England is an involuntary participant in Chicago's Mayoralty campaign. Verbal onslaughts on the campaign. Verbal onilaughts on the unwitting monarch, bands playing the national airs, cries of "America first," "Fight for Chicago," pamphlets passing from hand to hand, and whispering campaigns, mark a paradoxical political parade, probably never equalled in Chicago.

Bestdes the international tinge and talk of municipal home rule, discussion of racial and religious questions have been carried on in whispers and sometimes out loud.

Mayor William E. Dever, Democratic incumbent, occasionally asks what

King George has to do with the campaign.

William Hale Thompson, Republican nominee, former Mayor, Dever's predecessor, who served two terms, with a battle cry of "America first," is leading the fight on King George. The King's position is anomolous, except that Thompson charges school histories under the Dever School Board contain British propagands.

The voters, some bewildered, many unmoved, about 1,100,000 of them, will go to the polls on April 8 to choose between Dever, Thompson and Dr. John Dill Robertson, Independent, and former Health Commissioner under Thompson.

With Dever and Thompson against prohibition, liquor is not a major issue.

Will Use Funds to Restore Old Ironsides

BY FREDERIC J. HASKIN

to do their share in restoring the ship by domasting their pennies, nickels and dimes.

In the summer of 1925 Secretary Wilbur appealed to the Benevolent and Prosective Order of Elks to carry the story of Old fronsides to the children of the nation and take their contributions toward restoring the old ship. The Elks gladly assented and carried the story to 5,000,000 children not only in continental United States but in Alsaka, the Hawalian Islands, and Porto Rico. As a result of their work \$175,000 will be raised.

SCHOOL OFFICIALS OBJECT

SCHOOL OFFICIALS OBJECT
In the beginning the school authorities of many large cities objected to collecting money from the school children, stating that it violated a drastic rule. Early in 1926, however, those of Boston, New York, Philadelphia, and scores of the cities of lesser size withdrew their objections, having come to a realization that the United States Navy was not sponsoring the Old Ironsides movement merely to collect funds for her restoration but because they realized that it was a patriotic and educational movement that would stimulate the interest of the young people in the history of the American Navy. The building of the Constitution and her sister ships marked the greatest single advance in naval construction for a century and they held undisputed pre-eminence in the frigate class until 1840. Luckify for Old Ironsides they were built either to fight or run, and her ability to do the latter is responsible for the remark-shie length of service to her credit, since on three separate occasions the escaped from British squadrons.

Los Angeles' Popular American Tailors

Guaranteed \$50 and \$55

Hand-Tailored Suits

to Order for A \$100,000 Stock of Imported

JAMES CHARLESON

Special Statement to All Typical Americans

Being fully aware of the sensitive nature which is the natural heritage of all American gentlemen, which signifies refinement, culture and good breeding, whose finer sensibilities and gentlemanly instincts will not allow the embarrassing of others or themselves over trivial matters, even though it may mean a loss to them through no fault of their own, we sincerely wish to impress upon the minds of all gentlemen deeming us worthy their valuable consideration that we are more than desirous of being fair In every way possible, as under no circumi wish to cause a loss to any one through no fault of their own, we wish to assure those responding to this unusual offer that if you are in any way dissatisfied with the suit you have ordered upon its completion, we respect request that you step over to our bookkeeper who has received implicit instructions to ask no questions, present your receipt with the amount of the deposit you have paid and same will be instantly refunded you without a question being asked. But if still retaining your confidence we will deem it a pleasure if given the opportunity of remeasuring you for an entire new suit if agreeable to you we are both fully willing and amply capable of sustaining any loss that may scorue through any fault of ours. A loss of that kind in our opinion is a more trifle and absolutely nothing when compared to your good will and future valuable consideration. Integrity and reliability has always been the foremost predominating traits and principles of this institution and from which and under no ciroumstances will we ever deviate, Gentlemen, bear dis-tinctly in mind money means nothing to us where our name and reputations are involved and at stake. Our time is extremely limited on the crust of this old earth. sa we're not going to be here forever, hence we are far from being crazed over the acquiring and accumulating

THE RESIDENCE OF THE PROPERTY OF THE PARTY O

of the necessary root of all evil.

**Fabrics to Select From** 

GENTLEMEN—We were fully aware of the Inevitable result previous to the starting of this great value-giving bonafide tailoring campaign. After thoughtfully deliberating the matter we were prepared to go to the utmost extremes in going after the business of the clothing buyers. If one is possessed with a grain of common sense, we know he would much rather have a auit of clothes that is tailored to his own individual measure for \$35 than pay the same price for ordinary clothing. We are producing values at the present time which is an utter impossibility for clothlers to compete against. We'll verify that statement. Go to your own particular clothler, examine the quality of the suit he offers you carefully and thoroughly, examine the grade of lining that's in that suit, examine the grade of workmanship very carefully, then note the price they ask but say nothing. Reserve your decision for the time being, which is only fair to you and fair to us. This is going to be bitter competition to the end, then pay us a call, examine the splendid high-grade imported fabrics that were shipped to us direct from England, Ireland, Scotland and Germany through the Panama Canal; examine the imported high-grade linings and trimmings that we show you and which is also used by exclusive tailoring firms whose prices range from \$60 and up a suit, then examine the workmanship in some of our suits waiting to be delivered. You already know our price—you can then decide between that \$35 manufactured suit and a guaranteed \$80 or \$55 hand-tailored suit made to your own individual measure for \$35. We are going to let you decide the issue involved. We have already added the names of hundreds of former buyers of ready-made clothing on our books. This forthcoming statement has never been disputed, it is an utter impossibility for clothlers to compete against tailoring firms who can produce tailored clothes at ordinary clothing

prices. Can any one compars a suit of ordinary clothing that is manufactured by machinery with a suit of clothes that is tailored strictly by hand to one's own individual measure? Clothlers are fully aware of the truthfulness of this statement, but, which is only natural on their part, would not ever dream of admitting it. Men, we are ready to prove every statement we have made. Our name and reputation stands behind the offer we are making you. The most magnificent selection of both foreign and American fabrics which are positively guaranteed to be 1009, pure virgin long staple lambs' wool, dyed in the wool and positively guaranteed fast colors, is here at your disposal. Every garment is strictly tailored by hand in our own shop right on the premises; lined and trimmines that the foreign markets can produce. The same identical high class workmanship, linings and trimmings will be placed in every suit as though the original selling price of \$50 or \$55 had been paid; the fitting of your suit will positively be guaranteed to be perfect in every detail, if otherwise, your deposit will be instantly refunded upon request or we'll gladly remeasure you for an entire new suit if agreeable to you. It goes without saying that our old customers will swamp us in availing themselves of this offer, but that was not the object of this campaign. The purpose of this campaign was to get acquainted with new trade and convert readymade elothing buyers to the habit of having their clothes tailored at an ordinary price. We have met with tremendous success as far and will continue a campaign of this kind and continue to produce these values as long as the men of Los Angeles will co-operate with us. ARE YOU WILLING TO GIVE TUCKER AND CHARLESON A FAIR TRIAL IN THIS MATTER WHICH MEANS DOLLARS AND CENTS TO YOU?

Profit-Taking Late in Week
Wipes Out Gains

New York. March 27. (Exclusive)
The cotton market made the sharp ries of between 55 and 60 points in last Monday's trading on the Census Bursel's buillash report on 26-tual ginning of the crop. That advance, approximating 83 a bale from Saturday's closing prices, brought May contracts up to 14-32 cents. July, 14-80 cents; October of the new crop 14-75 cents, and December, to 14-33 cents. Those prices were established on active covering of shorts and considerable new trade buying as the Census Bursel's made December, to 14-33 cents and considerable new trade buying as the Census Bursel's new eight the government's crop estimated in the crease of the trade in the grower would be around 18-200,000 bales. With actual ginning figures definitely setting the size of the crop take interest of the trade in the actes of the reduction that will be made in the acreage for the new crop indo the way its season in the ground starts.

ADVANCE LIST

From the high prices of Monday there has since been a reaction from renewed profit-taking and the disturbing influence of the Chinese situation on Great Britain's cotton trade with the Far East, bringing May back at the close of business yesterday to 14-08 cents; July, 18-38 cents; October, M. 400 cents; July, 18-38 cents; Cotober, M. 400

SATISFACTORY EARNINGS

with the Far East, bringing May back at the close of business yesterday to 14.08 cents, July, 14.28 cents, to 14.58 cents a pound.

The amount of the crop brought into sight in the movement from plantations from August 1 to date now totals 16.647,000 bales, against 14.648,000 the same time last year. Of this total actual world's spinners' takings are now up to 12.517.000 bales, against 11.342,000 last year. with export clearances to date 8.680,000 bales, against 6.654,000 last year. Of these shipments 2,140,000 bales have gone to Great Britain from August 1. against 1.885,000 last year and 2.324,000 to Germany, against 1.449,000 last year. Shipments to Japan to date are 1,180,000 bales, against 318,000 last year and 2.000 bales, against 46,6000 last year. Shipments to Spain ar 262,000 bales, against 264,000 last year. Holland has taken 121,000 bales, against 109,000, against 184,000, against 180,000, against 192,000. Proceedings of the season's record-breaking exports, however, is the shipment of 191,000 bales to India against nothing to that country last year. India's crop has been smaller the past year and large purchases of low-grade cotton have been smaller the past year and large purchases of low-grade cotton have been made for Bombay and Calcutts trade interests over the last few months.

The present world's visible supply of American cotton is 6,408,000 bales, against 109,000 a year ago. There is every indicating now over to the season's record-breaking exports, however, is the shipment of 191,000 bales to India against nothing to that country last year. India's crop has been smaller the past year and large purchases of low-grade cotton have been made for Bombay and Calcutts trade interests over the last few months.

The present world's visible supply of American cotton is 6,408,000 bales, against 2.640,000 is not to a system to the past year and large purchases of low-grade cotton have been made for Bombay and Calcutts trade interests over the last few months.

#### **PEDLEY'S TEAM COPS** POLO TILT

Purple Riders Defeat 9-to-6 Score

When young Eric Pedley playing is best game he is almost unbest-

enter elip. Perkins who is one of the best No. 3 men in polo, played a good game yesterday but young Pediey's mallet swingin gand riding was just too much for the English star to overcome. The game which was hotily contested from start to finish was marred by one distressing incident in the seventh period when Umpire C. B. Wrightsman's valuable pony Krusan dropped dead in midfield.

This unfortunate incident halt-

man's valuable pony Krusan dropped dead in middeld.

This unfortunate incident halted the game for about five minutes and took some of the fun out of the game for the players and spectators. Although Jim Spalding of the Purple team was the high scorer of the day young Pedley was more or less responsible for the goals made by his team. Pedley at times stopped the ball with his mallet in midair and belted it almost half the length of the field during his riding spree. He was ably supported by Hal Roach, the left-handed movie magnate who covered Arthur Perkins as well as any one can cover Perkins in a polo game. The White team which put up such a great game in beating Santa Barbara last week played a good game yest' lay but they were not in it with Pedley or his players.

Pipal Has Too Many Stars PUNCHES for Ris Rivals

Tanner, Scovel and Webb to Score Heavily

Pomona, Caltech and Bruins Have Outside Chance

#### BY BRAVEN DYER

The annual Southern California Intercollegiate Conference track and field meet is slated for Saturday aftresenting U.C.L.A., Pomona, Occiden-tal, Caltech, Redlands, Whittier, La-Verne and San Diego will compete championship, which already belongs to the undefeated Pomona College

However, the meet always attracts

However, the meet always attracts local fans for conference athletes have a habit of doing just a little bit better than in their dual engagements. The competition is tougher and the boys just naturally get down and dig a bit harder.

Joe Pipal's Occidential outfit rules a slight favorite to cop nigh honors Saturday. The Tigers have three star performers in Capt. Irvin Tanner, Atwood Scovel and Millard Webb. Tanner should win both hurdles and possibly a place in the high jump. It is pard to see how Scovel can lose the mile or half-mile. Webb looks ripe for first in the shot, and a place in the low hurdles. Schweizer should take first or second in the quartermile, thus giving the Bengals approximately 30 points to start with.

Pomona's strength lies in the

mile, thus giving the Bengals apmonamately 30 points to start with.

Pomona's strength lies in the
field, where Hezmalhalch should
win the hammer. Hall the discus
(maybe.) Lillibridge the pole
auilt, French the broad jump,
and Beil first or second in the
high jump. On the track the
Sagchens are likely to get onlysecond and third places, unless
Willard Rew should beat Schwelzer in the 440. The Sagchens,
therefore, can caunt on only 23
or 28 points for sire. Bob
Strehle's team is strong in second and third-place men, however and herein lies Pomona's
hope of victory.

Harry Trotter's U.C.L.A. team may
pring a surprise, particularly it

Harry Trotter's U.C.L.A team may spring a surprise, particularly if waite in the two-mile and Miller in the mile should place well up among the leaders. Keefer Gill and Huber ought to grab 5 or 6 points in the high jump, providing one of them can best or the Bell of Fomona. Schmidt should place in the 440 or 850, depending on which race he runs. He stands a better chance in the one-lap event, which he might win. Drummond is capable of surprising in the discus. Capt. Terry may pick up a point in the hurdles or sprints.

may pick up a point in the hurdles or sprints.

Caltech has several sure firsts. Murray Schultz abould win both sprints without straining himself, and Darling looks good for second or third in each race. If Schultz should run the quarter he can win that, too, and Coach Fox Stanton may plan things this way. Hoover and Anderson ought to place one, two in the javelin and the former should pick up a point in the shot also. If the meet gets close, with the Engineers up in there with the leaders, Stanton can shoot Schultz in the relay and probably win the whole works.

Pendleton, sprinter, is Whittier's best bet for points, while Mott of San Diego should cut in on the shot and possibly the javelin.

The conference frosh meet is billed for Friday afternoon at Claremont.

#### CITIZENS' TRUST NINE BEATS CALIFORNIANS

The Citizen Trust and Savings Bank baseball team defeated the California Bank nine yesterday by a score of 5 to 4. Caster and Fox both pitched a good game and each was touched for nine hits. CALIFORNIA BANK CITIZENS' BANK AB R H O A Schroed'r.e 4 1 1 9 0 Rinoin'r.es 4 0 1 1 8

# RABBIT PYLE ENTERS HOCKEY FIELD Promoter Takes Over Winter

time to call attention to the

fact that William Mellors He

stander" column, has just been

ry, "Bill" to his friends and the

papa of the breezy "Innocent By

signally honored by his alma mater. At the annual Tiger rally before the Oxy-Pomona meet the

other day Bill was presented with a miniature gold running

shoe. It is an emblem that

ordinarity is awarded only to

victorious track captains. Bill

ordinarily is awarded only to tictorious track captains. Bill was never a track captain at Occidental, but he was given this honorary token because of his record during his undergraduate days and the whole-hearted devotion to his alma mater he has displayed ever since.

Oddly, it was Bill's 3 points in the two-mile run in a certain the two-mile run in a certain the two-mile run in a certain ties. S.C.Oxy meet fifteen years ago that gave the Tigers their last track victory over the Trojans. It was back in 1912 and Bill was dug up for the occasion because the Tigers had no distance men and somebody remembered he had run a mile at L. A. High School. Bill placed an easy second to the demon Swiggett, after running about nine other Trojans into the ground. The Tigers won, 67 to 64, because of Bill's Surprise points, and he retired on his laurels. He had two more college years ahead of him, but he got a job and had to forsake the track. He went to school in the morning, and worked in The Times office from I until misinght. H admits he's being an old man now, but that lenge "Hank" Lunney for his place on the Comstock-coached LA.A.C. track team.

The consistency of one Charley

Parsons as a sprinter, which was

dock has not run worse than 10 1-5s, since 1919. In 1924 he ran 10 1-10s, in an exhibition at Scattle. It is a known fact that at that time he was favoring a bad muscle, which had been hurt at the Drake relays a week before. Paddock did not want to run at Seatle because of the injury, but rather than disappoint fans he went through with the arrangements.

Plans Coast Loop With Four

Local Season to Continue Until May 15

(Continued From Eleventh Page)

owned by the Pyle Interests, but frauchises will be sold in the San Francisco, Hollywood and Odkland territory. (8.) Pyle's plans contemplate an East-West world series at the end of each season. A big at-traction for this year is to be announced within the next two or three days.

owned by the Pyle interests, but franchises will be sold in the Snp Francisco. Hellywood and Odkland territory.

(8.) Pyle's plans contemplate an East-West world series at the end of each season. A big attraction for this year is to be announced within the next two or three days.

PICKENS ON PUBLICITY
The head of the enterprise announced that William Hickman Pickens will be publicity man for the project. "Hick the Pick" was tossed into football with "Red" Grange and though knowing nothing about either sport he got away with it in greet style. Pyle figures Pickens's education will be complete with his venture into hockey. William admits he doesn't know the difference between a horned toad and a puck. The new venture will give Pyle a reco.d in three different lines of sport—football, tennis and hockey.

At the end of the 1925 football searecord in three different lines of sport
—football, tennis and hockey.
At the end of the 1925 football season he took "Red" Grange from the
gridiron at the University of Illinois and rushed him into professional football togs. The venture
netted hundreds of thousands of
dollars for Pyle and the "Galloping
Ghost" of the chalk lines. "Red" and
Pyle took \$50,000 alone out of Los
Angeles for one game.

GRANGES PICTURES

GRANGE'S PICTURES

Angeles for one game.

GRANGE'S PICTURES

Then "Red" made a picture, "One Minute to Play," in Hollywood, and it went over big. Now he's making another in the same place—an automobile-racing picture.

Last fall Pyle and Grange formed a professional football league. Some of the teams went broke, but Pyle and Grange made money.

Pyle added tennis to football and signed the famous Suzame Lenglen for a tour of the United States. Pyle is said to have made \$100,000 for Suzame and also some for himself.

Hockey is next, and Pyle asserts he will put this over big in Californis. The game has been increasing in interest here yearly and Pyle believes it can be spread out in bigleague style He says it is an activity that should be recognized as a great sport, and, judging from the interest displayed by the packed houses which greeted the recent appearances of the Detroit millionaires here he is about right.

Pyle issued the fillowing statement last night: The taking over of the Los Angeles Winder Ganlen by "Red" Grange, myself and associates, is but the \$\frac{1}{2}\$ the state of the state of

Parsons as a sprinter, which was touched upon recently in this column, came to the attention of another Charley who succeeded him as a great runner at U.S.C. and brought some interesting dope from "Deacon" Braven Dyer, who interviewed Sir Charley Paddock as they were returning from Palo Alto after the Stanford-L.A.A.C. track meet. The "Deacon" has written his report as follows:

"Coming down on the train from the L.A.A.C.-California track meet at Berkeley a week ago Saturday I was interested to read in your "Rabbit Punches" column where Mr. Ed Cooper of Bremerton, Wash, considers Charley Parsons the most consistent sprinter of all time. Inasmuch as Charley Paddock, the world's fastest human, was also aboard the conveyance at the time, I took occasion to inquire what he thought about the marter.

"Charley, who is always apwhat he thought about the mat-ter.

"Charley, who is always ap-preciative of the old-timers, de-clared that he also thought Parsons a great sprinter, and that running as he did in the old days when tracks were none too good and training not so efficient as flow that Parsons had estab-lished himself as one of the pre-mier athletes of all time. "It took me quite a while to get what I wanted out of Paddock, namely and to wit, his record for collegiate and post-collegiate competition. But finally perseverance won and some of the facts are presented here for the benefit of Mrt Cooper, who will probably be interested, and other track bugs.

"Paddock's scrapbook discloses a number of things, among which are 9 4-5 and 21 4-5 races while in high school. It shows that Charley lost one high-school race in competition and that he never lost a shigle college race during four years of running. If my memory serves, Cooper bases Parsons's consistency showing primarily over a three-year period.

"The little book—It's really quite a bulky affair by now as Charley is in his fourteenth year of competition—shows that Paddock has not run worse than 10 1-5s, since 1919. In 1924 he ran 10 1-10s, in a exhibition at

Grimm Hits Two Homers to Lead Victors' Attack on Vitt's Sheiks

(Continued from Eleventh Page) singled past Tierney and took sec-ond on a wild pitch. Hartnett walked and Freigau ambled to third when the fourth ball was another wild pitch. Woody English oblig-ingly hit into a double-play to end the inning.

threw out Tierney for the third out.

McDowell opened the second with single to left and Cook followed by working Root for a pass. Mulcahy tried to sacrifice but Grimm came in fast on the bunt—and whipped the ball to Fragau to force McDowell at third. Lee forced Mulcahy at second. Kerr then punched a hit to left that scored Cook, and Lee also came home and Johnny continued on to third when the ball tolled through Webb's shapely underpinning. Frederick's single to right secred Kerr with the tying run.

In the fifth the Cubs scored again on Heathcote's single, a stolen base, an error by Cook when neither Lee or Kerr covered on the catcher's throw to second, and hits by Grimm and Freigau.

Hollywood knotted the court in its half of the fifth when Andy Anderson got his first hit in Wrigley Field, a line home run over the left-field bricks.

#### HUSKY GRIDS START SPRING WORK TODAY

SEATTLE (Wash.) March 27. (P.

INNOTENT BILL HENRY

THE victory of Pomona College in the Southern California Conference this year proves once more the fairness and wisdom of deciding titles on the outcome of dual meets because the team with a few stars can't win dual meets - it takes allaround strength and that's just what Pomona has. Unless we're very much mistaken Pomona, with the best all-around material in the Conference, will be beaten by Occidental in the forthcoming Conference meet for the few stars, can make about as many points in the Conference meet as she could in a dual affair whereas Pomona, whose strength is in second and third places, will be cut fato heavily by other schools.

Any coach can take a few stars and win a meet in which half a dozen or more schools compete because his stars are sure of their first places while, the other schools cut one another's throats trying to pick up the rest of the points. But it takes good material and good coaching to develor strong dual-meet team because the second and third places almost invariably decide these dual affairs. This year Oxy and Cal-Pomona and the U.C.L.A. have good all-around strength. Next year it may be different but that doesn't prevent it from being that way this year.

doesn't prevent it from being that way this year.

In the Conference meet Caltech with Schultz and Darling in the syrints will pick up about 13 points and will get 8 more out of two javelin, throwers. The 23 points is a big handicap to start with. Oxy with firsts in both burdles for Tanner, the half and mille for Scovel and the shot for Webb and a likely first for Schweizer in the quarter has a start of about 39 points. Pomona's sure first are Hezmahalch in the hammer, Lillibridge in the pole and possibly hall in the discuss and Bell in the high jump The Sagehens will have to try to overcome the first places of the other teams by an avalanche of seconds and third.

Meantime the prize dual meet of the year will be coming off at Palo Alto between Stanford and U.S.C., the two strognest dual-meet teams in the country—in college ranks. The Trojans are awfully strong, as the meet on Saturday showed, and by cutting into Stanford's points in the hurdles and the broad jump will make it very tough for the Cardinals to win even with the slight advantage of competing on the home cinders. If the folks at San Francisco don't turn out for that meet they don't know a good thing when they see it.

#### OBSERVATIONS GODFREY HEAVY FAVORITE TO WIN OVER FUENTE TOMORROW

One grudge battle and a heavy- more grudging for the fighters and market scuffle that may upset fig- more promising for the customers. weight scuffle that may upset figdires features Tuesday night's double
main event at the Olympic.

Joe Anderson of Covington, Kyand Leo Lomaki of Aberdeen, Wash,
are principals in one of the best
"mad" fights that have been booked
hers. George Godfrey and Tosy
Fuente are the heavies. Both are
ten-round bouts. Both are likely to
end in knockouts.

Wise money—so-called—makes
Lomski a 10-to-8 choice over Anderson, in spite of the fact that
Anderson holds a decision over
the Pollsh middleweight. And
Godfrey is 3 to 1 to beat Fuente.
But anything can happen with boxing gloves. Anderson may repeat.
Fuente may be the next long shot to
break up bank rolis. Anderson and
Lomski are making 160 pounds or
theresbouts. Kentucky Joe is the
lighter. Lomski knocked out Bert
Colima while Anderson lost a recent
decision to Colima.

Anderson is quite handy with a
lett hand. He has never been counted over, sithough Lomski bounced
of wor, sithough Lomski bounce
edition of the floor once in their skirn
fletish of floor once in their skirn
ish at Portland, but this is hotly
denied by Joseph. In fact, these words

goal of the day in the opening period when Howland Paddock and the ball across the Purple line after Arthur Perkins had jockeved it down the field. Pedley rode hard in this session and showed that he was leading up to one of his good games by the way he was hitting the ball. In the second period Pedley shot the ball to Spaulding who put it our for a goal. Wigmore of the White team made a goal which put the White team made a goal after Arthur Perkins's try had hit the goal posts. Wigmore managed to jockey it the wift a nice piece of riding. In the lived period Howland Paddock made a goal which put the Whites in the lead for a few moments.

Pedley made one of his spectacular rides, the kind that makes the spectators jump to their feet, a few minutes after Wigmore had scored for the Whites and he made a goal with a beautiful shot. Hal Roach came through just before the period ended and put the Purple four in the lead by making a goal. In the fourth season Dr. Wilson made a goal, after Pedley had belted the ball up toward the White soal posts. Pedley bounced one against the posts a few seconds lister and Jim Spaulding did the rest of the work by putting it over. Spaulding grabbed another tally before the period ended.

Jack Holt, of film cowboy fame, saved the White tearn, time and again in the fourth and fifth sessions witen Pedley, Roach and Spaulding bombarded the White goal line with sobts. Holt played a very nest defensive game, one of the best in his carrer. Wigmore of the Whites sneaked in a farmer with solds. Holt played a very nest defensive game, one of the best in his carrer. Wigmore of the Whites sneaked in a farmer with solds. Holt played a very nest defensive game, one of the best in his carrer. Wigmore of the Whites sneaked in a farmer with solds. Holt played a very nest defensive game, one of the best in his carrer. Wigmore of the Whites sneaked in a farmer with solds.

barded the White goal line with abots. Holt played a very nest defensive game, one of the best in his career. Wigmore of the Whites sneaked in a goal while the Purple team was blocking off Arthur Perkins. Wigmore at first missed the goal by inches, but he recovered and shot it across while learning almost halfway off his pony.

In the sixth period Pedley grabbed a goal after causing all kinds of trouble for the White team. He rode underneath the ball while it was

Overheated Gladiators Will Settle Disputes on Mat at Olympic Auditorium Wednesday

Two fully developed grudge matches are on the fire for Wednesday night at the Olympic when the four men in Lou Daro's double main event tangle for two world's wrestling championships.

Joe Stecher, the heavyweight cham-+ broadcasting and there will be trou-

plon, is fairly boiling over with free as a result of charges made by Nick Lutze, declares Antone Stecher, the Chicare

event Thursday night.

House, even counting his record of nineteen first-round kayoes, is in for his toughest fight against the giant Hawkins, who stands 6ft. 4in. tall and weighs 210 pounds, which is twenty more than Mack.

In addition fans will see three other heavyweight fights, the whole card being made up of big boys The sight-round semifinal—really a mainevent in class—is between Roughhouse Clyde Colvin and Walter Paimer.

#### HUGE OIL DEAL CONSUMMATED

Leases Near Bakersfield Involve 2700 Acres

Pacific Eastern Company Takes Over Holdings

Smaller Kern County Tracts of Los Angeles, H. C. Burton, gen-Also Sold

BAKERSFIELD, March 27,-(Exclusive)—Leases covering 2700 acres of potential oil property in the Union-avenue district just south of Bakersfield, where a test for oil values is being made, have been assigned to the Pacific Eastern Production Company, a new corporation ranized February 14, with Hoyt 8. Gale as president.

The transfer of holdings, one of the largest recorded here this year, has just been filed. Several leases covering smaller tracts throughout Kern county have been acquired by the new organization. The papers indi-cate that the company has ap-proximately 12,000 acres scattered throughout every poten-

State.

Sixty-one of the lease assignments were made to the Pacific Fastern by Gale, driller of Unionavenue test, which today was reported to be at a depth of 3800

feet.

Nine other Kern county leases have been assigned to the new corporation by E. C. Bothwell, the records show. A. E. Wallace has been made vice-president and manager of the land department of Pacific Eastern, which has been organized under California laws.

## Texan to Sink Mine Shaft in Hunt for Oil the producing list in the fields of San Joaquin Valley for Pehruary than there were in January this

BROWNWOOD (Tex.) March 27, backusive)—Mining for oil instead of this section of the State was 540,-(Exclusive)—Mining for oil instead of drilling is the vision of W. H. Case of El Paso. Tex., mining engineer, who has come to Brownwood to try an experiment.

Case announces that he will begin at once sinking a shaft on acreage he has obtained in a shallow field two miles from Brownwood. He intends to put down a \$x7-foot hole to the oil sand and then tunnel out in two directions in the sand, 100 feet each way.

His theory is that the larger drainage of oil sands will produce more oil than can be obtained from a well in the same stratum. Sinking a shaft and digging a tunnel, he states, will cost four or five times as much as drilling a well, but he believes the larger production will justify the expense.

Unusual Values

HIGH GRADE Situation Clouded With Fifty-Three Wells Drilling and Prospect of Simultaneous Completion Property of Angelenos

There are seventy-one wells in the Alamitos Heights district in East Long Beach, which was opened to drilling just four weeks ago. Fifty-three of these wells actually are drilling, seventeen are either building or preparing to build derricks, and Pan American Petroleum Company's discovery well

of Gold Cliff

The intense competition for the oil at Alamitos Heights has no procedent in California oil field history, Feldspar Mine even taking into consideration the booms at Santa Pe Springs and Sig-nal Hill. Notices to drill forty-three wells were filed with the State Mina new record for the State.

It is a significant fact that prob

ably three-fourths of the wells at Alamitos Heights are being drilled

company depends upon occasional mill runs, only, for funds with which mill runs, only, for funds with which to carry on development work.

Meanwhile, plans are being arranged for mine development designed to open up new shoots and chimneys at the intersection of the calcite-manganese veins with rhyolite dykes, there being three of the former and two of the latter traversing company holdings. The geology of the ore deposits on Yellow Dog domain, carefully worked out by Mr. Burton, is believed to furniah the key to the ore deposition of the property, the original rich surface discovery being at the contact of the calcite-manganese vein with a rhyolite dyke.

to storage, and perhaps a limitation on the botal amount of oil to be handled.

In the botal amount of oil to be handled gerstore in the field them selves realize the seriousness of the overproduction of the selves realize the seriousness of the overproduction that may be precipitated the seriousness of the overproduction that may be precipitated and account of the maintain that may be precipitated the development. The problem involves so many factors in the way of independent operators, and property-owners that little progress has been made so far in arriving at solution.

Alamitos Heights geologically is a part of the Seal Beach field, which is the Mariand, Standard and Associated have been producing from for the past six months. A comparison of the methods of development in the older district, where the acrosses is hald in large tracts by only three operators, and the town lot district is interesting.

The older Seal Beach field, more than is methods of of more than is months old, has twenty three producing wells, yielding and sixteen rigs and locations. The mean double-compariment than security wells actually drilling, and sixteen rigs and locations. The man amonth.

# in Virginia Dale to be Reopened Texas May Put

The Supply mine is the Virginia Dale mining district of San Bernardino county, lastly acquired from Mr. Phillip Wissman and the heirs of Seeley W. Mudd by the Arrowhead Development Company of Tonopah, Nev., is to be reopened immediately basis as rapidly as underground conditions will permit. As the shaft goes to 1100-foot lavel, there is opportunity for several crews to work at the same time on different levels. Saturday afternoon miners with tools and supplies were taken to the property and will overhault he mine and mill machinery and open up the shaft so ore may be hoisted.

New Machinery Being Placed at Hardshell Mine

We Recommend as a High Grade Investment Consolidated Gas Company of New York

\$5 Cumulative Preferred Stock

once has been Authorized by the Public Service Commission of the State of New York

The Consolidated Gas Company of New York was organized in 1884, and, either directly or through its affiliated companies, does practically the entire gas and electric light and power business in the Boroughs of Manhattan and the Bronx, in a large part of the Borough of Queens, New York City, and in Westchester County, serving a population estimated at over 4,000,000.

The Company owns or controls over 99% of the aggregate of the stocks of its affiliated companies, including the entire stock of the New York Edison Company.

The gross earnings of the Company and its affiliated companies for the calendar year 1926 were \$153,799,528, and the balance available for dividends after all prior charges was \$35,666,893, or approximately six times the annual dividend requirements on the \$5 cumulative preferred stock outstanding. The equity above the cumulative preferred stock is represented by 4.320,000 shares of common stock. Based upon current quotations, this equity amounts to approximately \$425,000,000. Dividends on the common stock of the Company have been paid without interruption for over forty years, the present rate being \$5 a share per annum.

Insurance in the United States measured by dollars involved is the greatest business in the world. Including all kinds of insurance policies the sum represents \$100,000,000,000, more than the value of all the farms in the country. All because of a "joker" in an in-ternational agreement liquor is flow-ing across the border from Canada to the United States at the rate of \$30,000,000 a year.

# MAGNESIUM ORE AVAILABLE

Monorall Road to Deposits Reconditioned by Local Company and Deliveries to Start at Once

The American Magnestum Company of Los Angeles, T. H. Wright, president and general manager, has completed the reconditioning and reequipment of its thirty miles of monorall road between Magnesium, a station on the Trone Railroad, and its mammoth deposits of raw material, and is now ready to deliver forty tons of crude magnesium, daily, to the company's refining plant at Wilmington, near tidewater.

A number of important additions even tons of magnesium earbonate are being made to the plant, President Wright says, and these will be completed about April 15, when the manufacture of thirty-two tons daily, of three commercial and finished products will begin consisting of three commercial and finished products will begin consisting of the monarall railroad is one of the monarall railroad is one of the engineering achievements of the West in recent years. It has furnished the text for a large number of descriptive articles in class publications, and has attracted much attention from an economic viewpoint and its unique method of operation. The new equipment for this little road includes three light locomotives, to be used on the level stretches and truck, Edward Edwards, 5525, -11-27, one for coupe, Sam Ross. been deepened to a depth of 150 feet, with progress being made at the rate of three feet daily; the intention being to seek the 1000-foot horizon, cutting stations at intervals of 100 feet, as soon as the new power plant is in commission.

Upon the ponysummation of the electric installation two other shafts on the property are to be sunk to deeper levels, according to Mr. Dunning, who says that the incline shaft will soon have reached a depth equivalent to that of the winze on a parallel vein to the east where some very fine ore characterized exploratory work at that point. The ore exposed in cross-cutting from the incline shaft is a primary sulphide carrying chalcopyrite, and it is claimed values and size of the ore deposits are steadily increasing with depth.

LOS ANGELES, March 10.—Q.: The sample was found near Glendors. What is it? C. A.: It is a mixture of hornblende and pyroxene. Such mineral represents a very doubtful commercial value.

LOS ANGELES, March 10.—Q.: The sample was found near Glendors. What is it?

A. It is a mixture of hornblende and pyroxene. Such mineral represents a very doubtful commercial value.

"Croppings"

LOS ANGELES, March 11.—Q.: (1.)

Will you please let me know the names of the inclosed rock samples? (2.) Is this rock sedinishtary or metamcrphic? (3.) Is it characteristic of an ore body (country rock?) (4.) If I have found a vast network of the gypsum-vuggs in a small area of this rock do you think it possible, or likely, that these vuggs may carry ore with some depth? The samples assay traces of gold and one ounce of silver per ton ore. Anxiously awaiting your report.

A.: Sample No. 2 is probably a brecclated, altered calcite. "Among rocks, only the following are believed by most petrologists to be invariably metamorphic: Quartzite, mics schist, hydromica schist, chlorite schist, talrose schist, argylityte, or phyllite, serpentine, and, until recently serpentine and even quartzite had been placed among eruptives." And we quote further: "Granular or crystalline limestone (marble) of white to gray color is usually a metamorphic rock, and was originally common limestone." No. 3 is not characteristic of all ors bodies. It is also altered lime carbonate. It is true that gold is found occasionally in calcite and even quote consumily in calcite and even quote consumily in calcite and even quote case and west it might be silver-lead, and zinc ores may occur at depth, but this is theory only—judging by the samples. The empty vuggs may have been nesting places for pyrite or chunks of sulphur many years ago, and this statement many years ago, and this statement of the proposed and the inclosed sample of proposed in the statement many years ago, and this statement of the proposed and the inclosed sample of proposed and the inclosed sample of proposed and proposed and the inclosed sample of proposed and proposed

## WOMEN TO FIGHT WET DEMOCRAT

Meeting Called to Check Efforts for Nomination of Anti-Prohibitionist

WASHINGTON, March 27. (A)-Ar ion styled the Nation rganization styled the Women's Democratic Enforcement League, composed of Democratic party women in several States, has called a Washington May wemen in several States, has called a conference in Washington May 6 and 7 to "check a concerted effort that is being made for the nomination of a nullificationist for the Presidency" in the Democratic party.

Other purposes are to launch an intensive educational campaign for women to take a "more vital interest in public affairs, especially in the enforcement and observance of law."

"Women members of the Democratic party who uphold the laws," the call continued, "will not indorse the nomination of any candidate for any office who is not loyal to the Constitution of the United States."

The call was issued by the organization's acting chairman, Mrs. Jesse W. Nicholson of Chevy Chase, Md., and the signers include former Gov. Nellie Taylor Ross of Wyoming.

## GOOD-WILL FLYER RITES SPRINGTIME a la CARTE By O. TO BE TODAY SPRINGTIME a la CARTE HENRY

Lieut. Benton's Body at Crissy Field as Comrade Buried in Michigan

BAN PRANCISCO, March 27. (A)-Ten airplanes wheeling overhead dropped flowers as the wreath-draped dropped flowers as the wreath-draped could containing the body of Lieut. John W. Benton was carried from a transcontinental train at the Oakland Mole today and transferred to a ferry to be taken across the bay to Crissy Field, where final services will be conducted tomorrow.

Lieut. Benton was killed near Buenos Aires February 26 in the crash of a Pan-American flight plane.

Crissy was Benton's home field.

# THE most brilliant and crowning feat of Sarah's battle with the world was the deal she made with Schulenberg's Home Restaurant. The restaurant was next door to the old red brick in which she hall-roomed. One evening after dining at Schulenberg's 60-cent, five course table d'hote (served as fast as you throw the five baseballs at the colored gentleman's head) Sarah took away with her the bill of fare. It was written in an almost unreadable script neither English nor German, and so arranged that if you were not careful you began with a toothpick and rice pudding and ended with soup and the day of the week. In return for three meals a day served in her room Sarah undertook to typewrite Schulenberg's bills of fare. Mutual satisfaction resulted from the agreement. Schulenberg's patron now knew what the food they

crash of a Pan-American flight plane.
Crissy was Benton's home field.

NORTH POINT (Mich.) March 97.
(P)—Funeral services were conducted here today for Capt. Clinton F. Woodsey. United States good-will flyer.
It is a main a sirplane accident in South America.

More than 2000 persons, boyhood neighbors of the fiver, stood about the cemetery as the casket, draped with a flay carried by Capt. Woolsey's grandfather in the Civil War, was lowered into the grave.

A detail of former soldiers and saliors in uniform, members of a load american Legion post, acted as guard of konor.

Lieutenants Carl F. Green and Robert G. Breen, sir service companions of the dead aviator of many flights.

Every flow of the control of the control of the dead aviator of many flights, and the south of here. They were hurried worland to this village where, with Lieut. I van C. Moorman, who accompanied the body from New York, they represented the War Department.

Nutural satisfaction resulted from Mutual satisfaction resulted from Mutual satisfaction resulted from Mutual satisfaction resulted from Mutual satisfaction resulted from the agreement. "Times" Daily Short Story

SAN MATEO, March 27. (P)—A horse owned by the Billbras Dairy broke away from its halter last night, dashed out on the State highway, and jumped on top of a moving sedan driven by Clyde Alles of Burlingams, crashing into the seating compartment of the machine and injuring five occupants, including a child 7 months of age. The horse was shot because of a broken leg.

The eccupants of the automobile were taken to the Mills Hospital, San Mateo, where it was found their injuries were slight.

TWO KILLED

Five More Injured

Two people were killed and several more injured in a series of accidents reported to police

of accidents reported to police yestefday. Betty Davis, 8 years of age, was killed near Walteria on the San Fedro-Redondo Road when she ran in front of an automobile driven by W. E. Seeting of Los Angeles, and Lloyd Heliman, 24, 725 West One Hundred and Fifth street, was mortally injured when a machine he was driving was of de wiped b a truck. Seeting was not held by police, but J. S. Smith of 170 East Sixty-third street, driver of a gravel truck, blamed for the Heliman accident, was held on suspicion of manslaughter.

Heliman with his wife, Mrs. Rathryn Heliman, 22, and Ivan P. Chappell of 712 South Grand avenue, were riding at Vermont avenue and Ninety-sixth street when their car, if was reported-was sideswiped by Smith's truck and turned over. Heliman suffered a crushed chest, skull fracture and broken jaw, Mrs. Heliman concussion and Chappell was made unconscious. Heliman died later at the General Hospital.

The other injured were treated at Receiving Hospital.

Miss Madeline Moose, 20, an actress on the Pantages circuit, lost her front teeth and Mrs. Alice Finkel, 50, of 706 North Fremont avenue, suffered a possible skull fracture in two traffee accidents.

> Only Defendants in Jail Will be Given Trial

Put Over Till July

Deficiency Bill's Failure Necessitates Delay

All United States District Cour es, civil and criminal, in which fury is required, excepting only n jail, will be ordered continued un ral courts here open this morning, secause of funds shortage. This acference of United States District Judges James, McCormick and Hen-ning, with U. S. Dist.-Atty, McNabb and Assistants McParland and Simp-

of the Northern District of California, who was in Los Angeles on a pleasure trip, ast in the conference. Action similar to that planned for the courts of the Southern District is to be taken throughout the country.

FUNDS NOT AVAILABLE

FUNDS NOT AVAILABLE
The conference was called by U. 8.
Atty. McNabb at the recommendation
of the Attorney-General. Congress
failed to pass the deficiency bill to
provide funds for the Department of
Justice and, according to the statement issued by Judge James following the conference, "Only a small
amount of money is available for the
prosecution of crime until July 1,
1927, when the regular appropriation
or the fiscal year 1927-28 becomes
available."

Mrs. W. J. Chichester

The partial suspending of criminal proceedings during the quarter commencing April 1 is made necessary by the fact that no part of the succeeding fiscal year's appropriation may be used to cover shortages for the present fiscal year, it was stated.

ACCIDENTS

The partial suspending of criminal proceedings during the quarter commencing April 1 is made necessary by the fact that no part of the succeeding fiscal year's appropriation may be used to cover shortages for the present fiscal year, it was stated. The Community Chest is swamped with anxious inquiries from charitance of the second proceeding about how Mister Doheny and Mist

SALARY SHORTAGE

"The salaries of many of the at-taches of the United States District Attorney's office, the marshal's office and possibly the clerk's office will probably not be paid in full for the quarter," the statement issued by the Federal judges stated. "The dis-trict judges also will be able to draw only a part of the compensation provided for them."

Part of the same o

City Engineer Asks Permit to Start Work on Section Near Beverly Hills

# OF COUNCIL HIT

City's Burden Made Greater by \$400,000 Yearly

Wild Rush for Union Labor Ballots Given Blame

More Wage Additions Will Add Another \$168,000

City Budget Director Knox has filed with the City Council's Pinance Committee a protest against wholesale salary increases being granted by the Council on recommendation of the committee and at the behest of the Central Labor Council. These salary increases and new jobs created to date have added \$400,000 a year to the city's pay roll.

The committee has also recommended increases for 800 engineering department technical employees which if granted will add \$188,000 a year more to the city's pay roll. Objection having been raised by some of the Councilmen to the method of paying these increases—the Council's Pinance Committee will this afternoon again consider whether or not to change the method of paying these salaries by the present system of fixed rates for positions based on length by service in the department, to a new system of maximum and minimum salaries to be paid at the discretion of the City Engineer.

PRICE OF SUPPORT

PRICE OF SUPPORT

As organized labor has demands these increases as the price of labo support at the coming elections for the Councilmanic candidates, it expected that the engineering depar-ment increases will be granted, done this will make a total of \$568 000 a year added to the city's nay no

Consideration by Board trief ludges also will be able to draw only a part of the compensation. The state of the compensation of the compensation of the compensation of the proper of the control of the compensation of the proper of "In a charter amendment adopted Rovember 2, 1926, a mandatory provision requires that the Council provide funds to cover the budget of the pension department, which will be approximately \$2,000,000 for 1927-1928 or an increase of \$1,200,000 over the amount allowed them this year. "Increases in salaries and additional personnel granted so far this year will require approximately \$350,000 during the coming fiscal year. Therefore, in order to retain the present personnel at present salaries, the following additional revenue over and above \$21,535,000 must be provided. "In lieu of vevenue from Harbor Department, \$1,000,000; additional for pension department, \$1,200,000; to cover increased salaries and personnel, \$350,000, or a total of \$2,580,000. "In view of this condition we do not deem it advisable to recommend

Day to Support Their Families

MORE NAMES GIVEN

The statement of Minney was in substance the same as that of the sisters with the exception that, he added more details and told of his efforts and the efforts of the other club employees, he said, to try to quiet the disturbance to keep the place from being wrecked.

Minney gave the police the names of two girl entertainers and a plano player who were eyewitnesses and the detectives were hunting for them at a late hour last night to question them and to serve them with subpocus to attend today's inquest.

Although officials declined to comment yesterday it was indicated that an effort may be made at the inquest to ascertain how the night club was apparently operated in open challenge to the law. It was frequented nightly by large crowds and was evidently popular as it was a common occurrence to see it surrounded by expensive autos, neighbors reported. A large quantity of liquors and "spiked" beer was select by the officers. of two girl entertainers and a plano player who were eyewitnesses and the detectives were hunting for them at a late hour last night to question them and to serve them with subpoens to attend today's inquest.

Although officials declined to comment yesterday it was indicated that an effort may be made at the inquest to ascertain how the night club was apparently operated in open challengs to the law. It was frequented nightly by large crowds and was evidently popular as it was a common occurrence to see it surrounded by expensive autoes, neighbors reported. A large quantity of liquors and "spiked" beer was selected by the officers.

LAND OWNER WITNESS

Another new witness yesterday was U. S. Meeks, 1911 North Hobart Boulevard, owner of the night-club property.

He told the detectives that he leased the property to L. V. Martin on February 14, last, as a "tes shop." He asserted he had no idea it was to be used for a night club and that liquor was being served. Martin has not been located for questioning.

The witnesses who have been sunmoned for the inquest include San-rounded work a black and gray suit and gray cap.

not been located for questioning.

The witnesses who have been summoned for the inquest include Santinelli, Mechan, his wife, Mrs. Irene Dalton Mechan, actress, 313 North Oakhurst, Beverly Hills; John Binclair, film director, 1374/5, Ridgewood Lloyd Hamilton, Billie Jones, 1130 South Dunsmur; Waggoner, the St. George sisters, Minney and his brother, Eddie Minney, Meeks, Jimmie Ewins, Tim Toolin and Columbo Kelly, waiters: Joe Feraguchi, dishwasher, and Martin, the proprietor.

OTHERS TO BE CALLED

The detectives also expect to serve subpoenss on a number of other guests who were present.

Diggins went to the resort with Meehan and his wife, Hamilton, Jones, Waggonse and Sinclair. There were about twenty or thirty guests present, many of whom fled and whose identities are not known. During the fight Mrs. Meehan was taken out by Sinclair and he drove her around the block. It was said ahe was alightly injured and that when she and Sinclair returned Diggins was dead in Hamilton's arms.

The dead youth resided at 1440 Gordon street, Hollywood, with his young wife, Mrs. Marion Diggins, and his mother, Mrs. Richard Sather. He had quit the boxing game about six OTHERS TO BE CALLED

his mother, Mrs. Richard Sather. He had quit the boxing game about six months ago, his wife said, for a carrier in films. His funeral arrangements, which will be in charge of the Catholic Film Guild, had not been completed yesterday. SOD TURNED AT

BLOOD ON CAR

It is about two miles from the
shandoned car to the point where the
body was found. This point is only
two blocks from the home of Brown.
There was blood on the seat and
in some notebooks found in the car.
Officers said these notebooks contained some names and addresses,
and these are being checked to discover if the persons named can throw
any light on the mystery.
Brown's statement of his ahooting
at a prowler was given as follows:
"Shortly after II 30 p.m." he said.
"my wife and a woman reighbor returned to the house after making a
purchase at a near-by corner drug
store. They observed a suspiciouslooking character bolvering about in
front of our house. After some hesttation they passed him and came on
in.
"We then all watched his move-

#### SCULPTOR EXPIRES IN CLAREMONT

Burt W. Johnson Known for Historical Groups in Cities All Over Country

Burt W. Johnson, 27 years of age, widely known sculptor, died suddenly early yesterday at his home in Claremont as the result of a heart attack. He had been in failing health for several years but, despite his physical handicap, had continued at his work almost until the hour of his death.

One of his best known creations was his World War memorial status which he executed several years ago for the city of Pomona and which has been pronounced a fine example of scuptors art. He is also known for his memorial groups or statues in New York City, Huntington Park, Cal., Atlanta, West Palm Beach, Pia., and other cities. He was a pupil of Louis St. Gaudens, one of the world's most famous sculptors, and was regarded as an authority on American historical art, particularly in his chosen line. In addition to his active work as a sculptor, Mr. Johnson was widely known as a lecturer on art subjects.

He was born in Flint, O., April 25, 1890, and received his education at the Pomona Preparatory School and college at Claremont, following which he went to New York where he studied architecture and sculpture for some years. He was a member of many New York art scoleties, including the Art Students' League, the Architectural League, and nu-

he studied architecture ture for some years. He was a member of many New York art societies, including the Art Students' League, the Architectural League, and numerous other, organizations of kindred nature.

He was married August 19, 1916, to Miss Ottillie Marie Schmucker of New York City, also an artist, and three children were born to them, two of whom are living, Harvey William and Cynthia Mae. Besides his widow and two children, he leaves a sister, Mrs. Annette St. Gaudens, and two brothers, Maurice Johnson, poet and author, of Claremont, and Louis Johnson. Mrs. St. Gaudens's husband is a relative of the famous sculptor of that name.

Among the places where Mr. Johnson's work is or has been on display are the American Academy of Design and Architectural League, New York: the Pennsylvania Academy of Fine Arts, the Albright Galleries in Buffalo and the Columbus Gallery of Fine Arts.

For the last two years the sculptor had striven heroically sgainst heavy odds to finish a group for the new Los Angeles Library but had not completed the work when death came.

#### Mrs. Lindheim Sounds Plea at Jewish Jubilee

ver jubilee anniversary of the Jewish National Pund, celebrated last night National Fund, celebrated last night by an overflowing audience at Temple Brnai Brith was recorded by the presence of Mrs. Irms Lindheim of New York, national president of Hadasah, Jevish women's organization. As the principal speaker of the occasion, Mrs. Lindheim devoutly appealed to the Los Angeles Jewry to aid in the redemption of Palestine for the Jews of the world. "There may be differences of opinion in other matters concerning our religion, but for the reclamation of our homeland all must be agreed," she said. Short addresses were delivered by Rabbis Mayer Winkfer, S. M. Neches, Herman Lissaur and I. D. Essrig and Aaron Riche, president of the Zionist organization in Los Angeles. Marco R. Newmark presided. The program was arranged by Dr. George J. Sayhn:

THE TIMES-MIRROR COMPANY MUNICIPAL CAB LINES
THE TIMES-MIRROR COMPANY MUNICIPAL CAB LINES

FOUNDED DEC. 4, 1881—46TH YEAR.

LOS ANGELES (Loce Ahng hayl ais) MEMBER OF THE ASSOCIATED PRESS

Times aims at all times to be accurate in published statement of fact. Readers who r any Important inaccuracy of statement after a favor by calling attention of the Edi-bepartment to the error.

Bad laws, if they exist, should be repealed as soon as possible; still, while they continue in force, for the sake of example they should

NOT NECESSARY
Legislative proceedings in Finland are broadcast by radio, but we don't see how that is anything to gloat over.

Nowadays they call a hick town one in which the officials manage to enforce a tage of the laws.

WHAT PRICE VIRTUE?

In the spring a liveller iris changes on the burnished dove; the spring the bold, bad iceman gives his price an upward shove.

The city of Washington clears near \$100,000 a year on its garbage, but its political waste goes over the falls with nothing that smells like a dividend.

ROOKED BASEBALL "How can baseball be honest?" asks the Washington Post, "when the schedules are framed?" Yes, and when in nearly ev-ery game the players steal a few bases?

MUCH ANNOYED

Silence is said to be golden and speech
silver, but snappy chatter is hard to define.

It's lighter than aluminum and rattles like
tin and yet, goodness knows, it's full of

ADE MUTE she dislocated her jaw and could not speak for some hours. Some husbands will decide that what this country needs is more par-

Leipzig is going to build a steel tower 1950 feet high, or twice as tall as the Eiffel pile. Germany does not care for skyscrap-

er buildings, but has a whim to surpass France in the tower line. We have a different idea in this country. Here we build our business blocks higher than our towers monuments. They bring in more rent. OM SAWYER PHILOSOPHY Those student suicides simply oughtn't

to take themselves so seriously. They aren't starting something new, but something old as the hills. Practically everybody in his calf days thinks of suicide just the way they had failed to appreciate him before—but when he reflected that he couldn't be there to enjoy it all he lost en-thusiasm. Being a sound lad he finally saw that what he wanted was to die—for a little while only.

STRANGERS TO JUSTICE been denied the representation which num-bers should command. The constitution of ern part of the State gets at least 60 per ed to harpoon Los Angeles on the chance of getting more of the money for their own districts: There is no disposition to be

HE SUMMER WHITE HOUSE

vacation. Some lovely estates have been coast of Maine to the sunny slopes of Southern California. The lure of the Michigan lakes and of the Colorado mountains ore him. But for the distance from Washington the President would find more joy and comfort in our Southwest mountains than any spot on the map. Her he could find privacy—if it be a desired factor in his vacation. He could be guaranteed immunity from heat, cold, winds, President Coolidge could convince himself ifornia lie in its summers rather than its

eyes at the patronage there would be in municipal ownership and operation of the street railway system, they are no more than hinting occasionally that they would like to try it. They will be still more re-luctant if they peruse the report of the Boston municipally operated transit system for the year 1926, just made public; and if the local taxpayers read it the politician will not even dare to hint.

The Boston system consists of elevated

surface, subway and bus lines, privately owned in part, but all operated by the city, the privately owned portions being under lease to the municipality and, though the fare is just short of an average of 10 cents, the lines had a deficit for the year of \$482, 749. This deficit, of course, is paid by the Boston taxpayers in one form or another. Boston has a much smaller area than

Los Angeles, a consequently more congest-ed population and a consequently shorter haul on the average. The Los Angeles Railway, which asserts it is just about breaking even at a 5-cent fare, would quick-ly be forced into a receivership if its average cost per passenger were to amount to

report, in view of union-labor activities in the present city administration, is the naive the present city administration, is the haive admission in the report that the wages of street-railway employees in Boston are fixed by conferences between the unions of the Building Trades Crafts and the employers of the Building Trades Association and that the city of Boston has nothing to say about

A "Single Policeman Whips Five Men" plains, that the unionised traction employees are affiliated with the building-trades unions. Why is left to the imagination of the report's readers, who may comfort them-selves with the reflection that there is little logical either about politics or union labor. But the report continues:

"The total pay-roll cost for the year has been no higher, only by reason of a substantial reduction in the number of men employed and the careful exercise of operating economies."

In other words, the system is working out as unionized systems usually work, by re-ducing the opportunities for employment and restricting production. The labor cost per passenger in Boston was 4.767 cents, Sherwood Anderson is reported as saying that morality will never be restored until skirts are lengthened. That makes it look mighty bad for morality.

DIGNS OF SPRING

per passenger of the privately operated interborough system of New York, which was 2.294 cents.

The combination of unions and politics, it avident, lays a heavy burden upon Bos-

High cost of distribution

In two of his messages to Congress

President Coolidge has stressed the need
of an improved system of marketing food
and other products, and his able lieutenant, Herbert Hoover, has stoutly contended

president concerning markets. ant, Herbert Hoover, has stoutly contended against economic waste in production and distribution. Now comes Rafph Bordost, a well-known economic authority, who, out of his twenty-five years' business experience in the East, throws a flood of light upon the subject of high prices of commodities in an elaborate study of the problem of distribution were shigh here. living. It is true that this cost has been lessened in some localities, and particularly in Southern California, in the last few years, but, in the opinion of many economists, it is still far toe high. Mr. Bordosi says it never will be greatly decreased until distribution costs can be materially cut, and he ages no immediate presented of this and he sees no immediate prospect of this being done until there is a change in our

when one bought three lamb chops for 16 cents and twenty-two pounds of sugar for \$1—is told by the census figures showing the steady rise of the number of people engaged in production, which was 3,629,892 in 1870 and 24,481,905 in 1920, while the number engaged in distribution increased from 1,191,238 in 1870 to 10,433,102 in 1920, and at the present is still higher in each

modities, the same authority points out, is the compensation of salesmen and other distributors which has greatly increased. They as Mark Twain's boy hero, Tom Sawyer, business attaches more and more important that they were sold to scalpers and resold that they were sold to scalpers and resold tance to distribution and less and less to production.

It is easily seen why this is so. The reson is found in the keener competition of these times which sets a high premium upon the making of sales. Everybody knows what production means, but distribution is another story and is not so easily understood by the average retail buyer. It has to do with wages, transportation, rent, interest and profit. One heard little about the problem of distribution during the twenty descendants of the once-no-ble Red Men. There is a disposition on the part of some of the California legislators to pen-alize Los Angeles for its growth and ad-ty years immediately succeeding the Civil Angeles for its growth and ad-ty years immediately succeeding the Civil The city and county have ever War. In those years the demand for manubeen denied the representation which num-bers should command. The constitution of the State orders an apportionment based upon population, but the Assembly regular-lar self-upon population, but the Assembly regular-entire effort was to devise improved methupon population, but the Assembly regularly refuses to comply with this mandatelos Angeles county furnishes nearly half
of all the money made available for road
building and improvement, but the northbuilding and improvement, but the northof the manufacturer is not producing the goods, but in finding markets and distributing the goods." In other words, industry is no longer trying to find out how to produce, but how to market profitably what it

But granted that this high-pressure marketing has been developed in recent years, as it certainly has developed, who is to President Coolidge can have his pick tell us how the pressure can be reduc along with what are termed its wastes? One hardly sees the solution of the prob-lem in Mr. Bordosi's suggestion that "production be made subservient to consump-tion," for here is a task of such magnitude that it staggers the imagination. Besides, other factors enter into the equation, and one of them is the fact that the capital invested in manufactures in this country

\$50,000,000,000 today. Capitalists are not going to let their investments shrink away under the wand of some economic magician who says, "Let night. Theaters, as a rule, are conduct of what the world is beginning to realize—
that the great charm and enjoyment of CalThey will persist in working along their present lines of activity, always in the hope

largely a matter of salaries and wages paid to employees, and certainly the high standard of these cannot be said to militate against the general prosperity, for they are helping to build it up and maintain it. There are economic wastes, as Herbert Hoover often has pointed out, but they are not found in high salaries and wages, for they aid in the completion of the accommistion. they aid in the completion of the e

see that the trouble with Mr. Bordos whose remedies seem of a somewhat Com the subject of high prices of commodities in an elaborate study of the problem of distribution upon which he lays nearly all the burden of the continued high cost of living. It is true that this cost has been the law of compensation which regulates economic affairs as it regulates the uni verse. Emerson, who set forth that law quite clearly, held that the cheapest labor dear for a small frugality."

another the price of distribution comes back to the average consumer, who, of course, pays it in the first place. It comes back to marketing system.

Mr. Bordosi says that the whole story of why what we eat, wear and otherwise commonly consume costs so, much more than it does in another, be has, as a rule, in the did hark in the "70" and "80" the times era of big prices, more dollars with which

THE TICKET SCALPERS

THE TICKET SCALPERS

Now comes the Federal Supreme
Court with the decision that theatergoers
have a right to pay whatever they are willing to pay for tickets; and that this is a
right may not be denied by State legislation. Ticket scalpers of Gotham are elated, for they have won a distinct victory over the State Legislature of New York. That

Production.

So the State Legislature passed a law penalizing the sale of theater tickets by

Prices for amusement tickets are con trolled by the inescapable law of supply and demand. That truth is brought home mission is certain to soar. Speculators will manage to secure blocks of tickets when they are first placed on sale. The manage-ment may decline to sell more than four tickets to any one person at one time. But to the selling office and may have ten othhe has secured more than 400 tickets.

He gambles on the popularity of the en-tertainment, and if he has felt the public pulse rightly he wins. All laws must be general in their effect, and there are rights guaranteed by the Federal Constitution which State Legislatures may not infringe upon. A person has the right to fix his own price upon that which is his own, has the right to buy and resell at a profit. That right may lead to abuses, but the abuse cannot be remedied by denying the right.

No one is compelled to purchase an amusement ticket, and if the public rebels grew from \$1,694,567,015 in 1870 to \$44,466- the speculator loses. There are abuses 593,771 in 1920 and is probably more than which the individual can remedy, but not the State. If the buying public would unite in refusing to purchase tickets from a speculator ticket scalping would vanish over night. Theaters, as a rule, are conducted for profit. If more money can be made by turning blocks of the best seats over to ly that the French Chamber of Deputies had speculators than by selling them to the decreed that every citisan of France would public at the box office the speculators will be subject to a call to bear arms and that winters. While the average tourist drifts into California to escape the rigors of his own winter, the native son stays here all the time and finds life a year round picnic.

The situation is not so bad as Mr. Borothe time and finds life a year round picnic.

opatra, but he would not pull down Caesar to lift himself up. Who wants the cook at his worst in the feast? Who wants the mechanic at his worst with the car? Who wants the statesman at his worst in history? The world is trying to live down its past—why not

QUEST OF BEAUTY
Those who know say that more than half a million American men are now using cosmetics and beauty preparations secretly. And there are a lot of them who make no secret about it. The Lord knows that it is no longer held to be a sin to be beautiful and the mon surely need these helps more than the women do. There was a day when the ladies indulged their deco rating in fear and trembling and behind barred doors. Look at them now! In the ballroom, in the hotels, the street cars, on the highways and in the shops the lips and the powder pull are in constant service. Even the churches are not sacred against these complexion aids. Why shouldn't the men and the maidens visit the bobber shops and the beauty pariors side by side? That is the way they came out of the Garden of Eden.

O PERATIVE COSTS People who complain at the high cost of surgical operations in these days would de well to remember that Louis XIV was touched to the extent of \$200,000 for one very much of a one nowadays either. The French doctor didn't even give the grand monarch a nosebag doused with chloro

the women would not be exempt there probably was an error in the transmission of "A fool and his money" continues to be the message and that "bare" was intended.

# New "Fashion" Silks

# Spring Sale of

-Fashion more and more favors silk . . . a popularity justified by the important part it plays in spring's outfitting. The Silk is for the Ensemble, the Sports, the Day Time Frock, the Evening Gown. And now this Fashion Silk event comes along with our March Silk Sale offering beauty and value . . . two extremely important items!

#### Coulter's for Quality Silks Since 1878

Satin Georgettes

An Entirely New Creps Introducing to you this lovely new fabric which adds to the lovely drapable suppleness of satin the sheerness of crepe Georgette. Charming when used as a transparent coat over printed frocks. 40-inch.

\$4.50 and \$5.00 yd.

New "Ocean Sands" An Exclusive Pebble Weave

-The smartness of silks for sports wear. It s i m p l y clamors of lovely frecks for the sandy beach and sunny days on the links. For it makes up most effectively when two colors are combined in smart sports wear. 40 inches wide. \$4.00 yd.

Silverette Crepe A Complete Selection

This new weave will intrigue you as it comes in a lovely soft finish that clings and drapes most entrancingly. And needless to say it is Coulter's beautiful quality, and it comes in the new shades of spring. 40 inches

Smart New Cameole

\$4.50 yd.

A Two-Toned Effect -A new two-color effect that is delightful. It is a plain weave, but the quality and color effects are so beautiful that one loves this fabric on sight. And a nice wide 40 inches too.

\$5.50 yd.

## Genuine Crepe Elizabeth

The Real Import —If you see other crepes bearing this name they are not the genuine imported crepe Elizabeth. And it comes in the most intriguing colors, also the effective and always serviceable black.

Also 40 inches wide. \$5.00 yd.

Some Very Special Items **40-inch Georgette** 

Crepe \$1.95

-In black and colors and many of them in this large assortment.

40-inch Satin Crepe, \$2.95 -Black and colors in a good heavy weight and in the delightful light pastel shades, as well as darker tones. 40-inch Flat Crepe \$2.45

-Black and white are both offered at this price, as well as the other pretty colors of spring.

40-inch Heavy Flat Crepe, \$2.95 All the season's colors, excellent quality; underpriced for the sale.

40-inch Printed Crepe de Chine \$195&\$795 40-inch Printed Voiles

## **MOLERANCE URGED AS CURE** FOR ILLS OF HUMANITY

# Swami Dhirananda Over KHJ Says Christianity and Hinduism Fundamentally Same Cheating for toleration on the part of missionaries of all religions, Swami Dhirananda, in charge of Mt. Washington Educational Center, in an address yesterday from The Times Company's offices at 4 o'clock this afternoon for an election of directors for 1927, and attend an "open now in operation under a permit from the State Insurance Commissioner. W. E. Chamberlain is president; J. R. Richards, chairman of the finance committee; Egbert Van Alen, secretary, and E. R. Holland, general and several other talks will be given at the banquet this evening. They especially ask all stockholders to be and plans for the future outlined. The Acme was formed by a group meet their fellow-members.

broadcast station, declared that Christianity and Hinduism are kernel, not the husk of the Veda, survive who love others as they love fundamentally the same and that the devotees of both should ago. co-operate for the common welfare of mankind.

tures exhaust Hinduism. Christianity and Hinduism cannot be buried in books; they live in self-aacrificing men and women, they live in soulintoxicated saints. There are many Christians who are Hindus and many Hindus who are Christians without sither changing the outward garb of faith. The brand of a particular faith is put on men by birth, geography or dogma, and if one or more of the above three determine our religion we have little to boast about. There is no religion higher than truth, and truth can only be expressed in different ways by 'isma' but it is never exhausted by them.

SOUL QUALITIES

"The missionary zeal of orthodox Christians preaching in India, and English-educated Hindus preaching in America ought to be tempered

Indiscriminate banning of the exist-ing ones are not hinted by Jesus. There are expressions of soul qualities in the East and the West, and there are approximately and there are expressions of soul qualities in the East and the West, and there are approximately and there are expressions of soul qualities in the East and the West, and there are expressions of soul qualities in the East and the West, and there are expressions of soul qualities in the East and the West, and there are expressions of soul qualities in the East and the West, and there are expressions of soul qualities in the East and the West, and there are expressions of soul qualities in the East and the West, and there are expressions of soul qualities in the East and the West, and there are expressions of soul qualities in the East and the West, and there are expressions of soul qualities in the East and the West, and there are expressions of soul qualities in the East and the West, and there are expressions of soul qualities in the East and the West, and there are good customs, traditions and philitup provincialism in religious thinking that have crusted on Hinduism and Christianity during all the ages, both of them have done in the light on the hinduism and Christianity during all the ages, both have brought peace

SOUL QUALITIES

The missionary zeal of orthodox Christians preaching in India, and Faguilian-educated Hindus preaching in India, and Eaglish-educated Hindus preaching in America ought to be tempered by the consideration that heathenist due not consist, on the one hand, in these the consists, on the one hand, in the professor in

The speaker said in part: principal missionary work either of "The Bible does not exhaust Christianity nor do East Indian Scripportation of customs and dogmas and tures exhaust Binduism. Christian-Indiscriminate banning of the exist-

#### MATERIALISM HIT

BY BRUCE BROWN "Why I Am an Infidel" is the topic of a sermon preached yesterday by
Or. Bruce Brown of the South Park
Dr. Brown said in mouth Congregational Church. Dr.

"It requires more credulity to be an infidel than it does to be a Christian. We have come from somewhere and we are going some place. Infidelity leaves us without a plan or a purpose for existence. There is a wisdom manifest in the material universe. It is hard to believe that the power that sprinkled the stars in the midnight sky has no regard for godness and virtue than mud, but infidelity finds mud immortal and mind destined to be destroyed. This requires more faith than I possess."

LOVE DESCRIBED AS

WORLD'S GREAT FORCE

Lal Chand Mehrs of the lecturestant of the Christics of the University of California spoke at the Wilshire Boulevard Consists and falsehoods which the saw about Rim."

"It is well said that the good is frequently the enemy of the best. Jesus was tempted not by a fiend with horns, hoofs s-d tail, but by a fiend with horns, hoofs s-d tail, but by a fiend with horns, hoofs s-d tail, but by a fiend with horns, hoofs s-d tail, but by a fiend with horns, hoofs s-d tail, but by a fiend with horns, hoofs s-d tail, but by special act of deity; the fall of man and consequent degradation of humanity; the atonement of Christ; eternal punishment for those or eternal joy for those who do, and the Bible as God's infallible revelation to man.

"Literary criticism proves the Bible or the man, thus depriving the teachings of man, thus depriving the teach

tt not seem strange to have real, genuine righteousness in the City Hall, and the courtrooms? If the governments of the world should dress up their souls would there be war and the preparations for war?"

#### **DUTIES OF PARENTS**

STRESSED BY PASTOR Rev. Alden Lee Hill of the High-

yesserday on "Responsibilities of Parents." He said in part:
"The responsibilities of parents are not discharged by caring for the physical and mental needs of their children. Their greatest responsibility lies in directing the spiritual welfare of their offspring. A worthy father and mother has a greater opportunity than anyone else in influencing their children toward God. Character is largely formed during the early years of life. As a potter would mold the clay, so should parents shape and direct the spiritual tendencies of children."

#### "Life's Greatest Temptation" is the SPEAKER FORESEES

ORTHODOXY'S DOOM Theodore Curtis Abel yesterday m

M. Patterson will be arraigned this morning in Judge Stephens's court. The criminal charges were preferred against Patterson in connection with the death February 20, last, of Paul Grusling of 4815 Avalon Boulevard. According to testimony introduced at the preliminary hearing of the case, Patterson's car collided with one driven by Grusling at the intersection of Forty-ninth and San Pedro streets. Grusling was said to have died of injuries received in the accident.

### GEORGE M. IS GREAT SHOWMAN

Cohan Comedy at Belmont Keeps Audience Amused at Least

BY MARQUIS BUSBY Come to think of it there isn't uch of a plot to that entertaining medy, "So This is London," which pened at the Belmont Theater last ight. But then one doesn't miss ich a trifling matter as a plot in ughing at the George M. Cohan umor freely scattered throughout he proceedings.

the proceedings.

George M. Cohan and Arthur Gnodrich wrote the play quite a few years ago, but it is still timely enough. "So This is London" is at least 75 per cent Cohan in treatment. Although no one in the cast actually waves the Stars and Stripes. Or bursts into the National Anthem, the play is as patriotic as a Fourth of July parade. Cohan knows his public and is fully cognizer of the fact that if nothing else car rouse them a press-agenting of the old U. S. A. will bring them out of their comfortable opry chairs every time.

whough as Lady Ducksworth, and arie Hughes agreeable as Honeyoute.

VAN AND SCHENCK ARRIVE

Van and Schenck known to New York as peeriees night-club and valety entertainers, will headline a sw interesting bill which will be ferred at the Pantages Theater starting today.

The very thunder.

"Envy" is a comedy by Edwin Burke which conceals, beneath its rather boisterous surface humor, a cather boisterous surface humor, and cather boister

"is a corking show," said Edwin Schallert, Times.

"Meet Roxle Hart. Murderess—and heroine. If you don't know who she is as yet, you'll soon hear about her," continued Schallert, "for the play 'Chicago' in which she appears is something that will be talked about " " will have its audience intrigued and fascinated " " because of its daring " " the play is one that everyone will want to see " " Nancy Carroll will score a great popular hit because of this play " " 'Chicago' is up-to-date and brisk attraction that you cannot well afford to miss, particularly if you are questing daring, significant, and out of the ordinary."

"MUSIC BOX ROCKED WITH MIRTH . . 'Chicago' a sensation in New York, and one of the most discussed plays of the season . . . all eager to see."—said

"'Chicago' is more than good—it is a whiz of a comedy—one continuous laugh from start to finish," said Mossler, Record.

"THE LAST OF

MRS. CHEYNEY"

An Underworld Girl

on the charming dances of the two who are on the stage. They supply the art, he provides the hokum. A congenial combination.

It is a new idea to think of skating as one of the fine arts, but Bandy Lang and company almost make it a fact. Sandy himself is clever on the skates, but the real wonder of the act is Eleanor Bunting, who not only does all the usual daring tricks, but performs an adagio skating dance with Lang, which is well worthy of praise. There are two girls besides who are pretty and skate well.

There must always be one clown on a vaudeville bill, but usually he isn't as good as Jed Dooley, who succeeds in making himself very amusing, while his assistant, Audree Evans, is just about as pretty a girl as I have seen in many a day.

I'm still wondering just how Mr. Frekson did it—which, of course, is as good as telling that he is a magician. He is called "the Man of a Hundred Cigarettes," and that isn't false advertising either, for he brings lighted cigarettes from every part of his clothing, smokes them, throws them away only to find fifteen or twenty more about him. It's a hot act.

Mr. and Mrs. Jimmy Barry have a course, or new characterizations that and he provided a goodly number of and he provided a goodly number of

by the content of the pooling of the rectangle of the season and Maude George were both season in many a day.

I'm still wondering just how Mr. Frekson did it—which, of course, is as good as telling that he is a magician. He is called "the Man of a Hundred Cigarettes," and that isn't false advertising either, for he brings lighted cigarettes from every part of his clothing, smokes them, throws them away only to find fifteen or twenty more about him. It's a hot act.

Mr. and Mrs. Jimmy Berry have a couple of new characterisations they are introducing to vaudeville this season. In a skit called "Clinging Iry," Mr. Barry appears as the small-town lady killer and Mrs. Barry, all dressed up in ruffles, is the "girl" he has been engaged to for twenty years. Their act is very funny, and filled with Hickville humor. The scene is laid in front of the poolroom door, where the wooden Indian waits. Both Jimmie Barry and his wife know how to entertain vaudeville audiences, and they use their knowledge in this skit.

"This and That" is the title of the act featuring Handers and Millis. It is just that. Bome of their gars are funny, but they do not justify the innoortant place they occupy on the bill.

UKE-STRUMMERS, ATTENTION!

during wholl her picture from start to finate. In the mise tast the tiny is wholly her picture from start to finate. In the mise the still of the interpretation of the boy who are was Conway Tearle, who portaryed, as usual, the stern was conway tearle, who portaryed, as usual, the stern was conway tearle, who portaryed, as usual, the stern was conway the stern was conway to the boy who as deserted for the boy who was deserted for the pool read was a highly commendable performance.

Andre Beranger's interpretation of the effeminate French Count, proved one of the production's laughs.

Robert Edeson and Maude George were took excellent in their rooles.

GIFTED COMPOSER PRESENTS WORKS

Colin, Poetle Planist, in Recital tions of His Own

BY ISABEL MORSE JONES Peodor Kolin, talented young com-poser-planist, gave a recital of his own compositions at the Biltmore Music Room Saturday evening that was unique. Pew planists could du-plicate the variety and interest or such a program as he presented, for few have the mental or musical

such a program as he presented, for few have the mental or musical equipment. Inspired by the Indian poets, children's songs, naive and simple, oriental pictures, characteristic and fanciful; ballets and classical dances gave insight into Kolin's dream world. Improvisations upon submitted themes, after the manner of the old masters, proved further his unusual gifts and musical culture. A talk on Beethoven was a fitting tribute to the master and revealed a rarely fine understanding of the great composer.

Kolin has added a facile technique and a broad vision during his stay in Southern California, to which he came a few years ago from London. His compositions are interesting, well constructed and descriptive. There is no doubt as to his remarkable gifts; it only remains for proper encouragement to give him the impetus toward a deeper development of his talents.

His keen mind and delightful sense of humor were evident in his improvisations and portraits in tone. The audience was very evidently impressed by them, and although attempts at improvising are not unusual, it is rarely that one hears finnished works presented immediately, after the suggestion of a subject as they were at Kolin's recital.

### Schipa Sings His Way Into Hearts of Crowd

BY I. M. J.

Tito Schipe charmed a capacity audience again yesterday afternoon at the auditorium. This time his program was slightly different in character in that he touched a deeply religious note in a group of songs with organ, one of which was his own composition. One was reminded of the stories of the great tenor's early singing days when, as a choir boy in an obscure Italian church, he astracted the attention which made his career possible.

The intinitable Schipa quality of tone and the ingratiating Schipa warmth and charm of manner were contributory causes of the success of yesterday afternoon's concert as always, but the widely varied program of old Italian, opera-Italian, old English folk-song and the ever-fascinating sersuades from the southern countries made the recital an outsiending one.

This artist is especially fortunate.

countries made the recital an outstending one.
This artist is especially fortunate
in his choice of a planist to accompany him. Jose Echaniz developed
the singing tone of his excellent accompanying plano in a very fine way
and demonstrated his versatility by
playing the organ well and covering
limself with a more personal glory
in well-selected soles. The Kreisler
"Leibeslied," as arranged by Rachmaninoff, was a little gem of fine
writing for plano and the audience
was completely won when he added
a brilliant dance from his native
Cuba after a Lisat Rhapaody.

It is interesting to know that

#### MAE MURRAY GETS CHANCE TO DANCE

This is Dr. Rockwell's second week and his medical lecture is just as amusing as it was last week. There is enough truth in his nonsense to make the medical profession squirm a bit, which, of course, makes it doubly funny to the rest of us. In the final act on the bill, "the Merediths," the "doctor" perches in a box and makes voluble comments on the charming dances of the two who are on the stage. They supply the art, he provides the hokum. A congrenial combination.

HUNDREDTH TIME COMING UKE-STRUMMERS, ATTENTION!

Amateur utulele players of Southern California will assemble at Loew's State Theater tonight for a utulele elimination contest. Skill in playing the ukulele as well as proficiency in the Black Bottom and other latest dances to "uke" music, and in the case of the feminine entrants, beauty of face and figure, w'il count in the selection of the winning contestants. Joan Crawford, star of the current feature, will be one of the judges of the ukulele contest, as will Gene Morgan.

BUNDREDTH TIME COMING

Next Sunday night, the 100th performance of "Alias the Descon" at the Hollywood Playhouse will be marked with special celebrations in honor of Berton Churchill. Appropriate souvenirs will be given the audience. Mr. Churchill has given theatergoers one of the most beloved and original characters ever to play in this city, it is said. Barker Brothers of the winning contestants.

## Eight Women in Ten

have discarded old hygienic methods for this new way-true protection-discards like tissue

WHEN the world started ex-pecting more of women, the old-time "sanitary pad" had to go. Doctors urge a new way. Millions employ it. You wear sheerest frocks without a second thought, any time, anywhere. You meet every day unhandicapped. It is called "KOTEX" ... five

Thoroughly deodorless ... thus ending all fear of offending. Discards as easily as tissue. No laundry, no embarrassment.

You ask for it without hesitancy simply by saying "KOTEX," at any drug or department store. Proves old ways an unnecessary risk. Be sure to get the genuine. Only Kotex itself is "like" Kotex.

A SIMPLE nightly habit, famous beauty experts say, is today responsible for better skin conditions, greater charm and beauty, than any costly treatments known.

Simple cleanliness—soap and water—they aver, is the first rule in getting that schoolgirl complexion.

Wash the face gently with Palmolive. Massage its balmy clive and palm cill lather into the skin.

Rinse with warm water; then with cold. If your skin is inclined to be naturally dry, apply a little good cold cream. That is all—it's nature's rule for keeping that schoolgirl complexion.

Thus, largely on expert advice, millions use Palmelive Soap; souch KOTEX No laundry-discard like tissue

Deputy District Attorney
Opens Judgeship Campaign
at Dinner Given by Friend

Formal announcement of the candidacy of James P. Costello, deputy district attorney, for the municipal bench was made last night at a dinner given by his friends at the Jonathan Club.

Mr. Costello, who worked up from the job of a bootblack to his present position in the District. Attorney's office, was admitted to practice law in 1918, after five years' study at the University of Southern California, in 1918, after five years' study at the University of Couthern California.

JAMES P. Costello, deputy of Couthern California, the prosecutor's office a year ago. He is a president of the camber of the City Club.

Mr. Costello, who worked up from the job of a bootblack to his present position in the District. Attorney's office, was admitted to practice law in 1918, after five years' study at the University of Couthern California.

JAMES P. Costello, and the City Club.

James P. Costello, deputy district attorney. Andrew 8. Wilson has announced his candidacy for Councilman of the Fourteenth District. Mr. Wilson of the Eagle Rock Riwanis Club. He was born in Iows in 1863. Re is a self-educated man with experiment of being the first student body president. Then entering law school at the University of University of University of University of University of Courtent and lives at 608 North Device law in 1918, after five years' study at the University of University of Couthern California. The Costello was admitted to practice law in 1918, after five years' study at the University of University of

# A "Ground-Floor Plan" of Southern California

The Real Estate columns of Times Want Ads are indispensable to the investor or home-buyer. They serve as a ground-floor plan in showing where to buy-here an ideal spot to build a home . . . there a plot directly in the path of industrial development .-. . yonder a strategic site for a business block .... out in the country fine orchard lands, farms, ranches . . .

Times Want Ads exceed all other local papers combined in the number of Real Estate opportunities listed. You can rely on them to keep you fully informed.

## WANT-AD RATES

Rates per into insertice. 2: 8 substitution of the consecutive times. 3: 8 substitution of tim

Southern California) furnished en request.

To estimate the cost of want ads count 5 average words per line. It is a series as words per line. It is a should be counted as two words. Advertisers should retain receipts given by The Times for payment of want Ads as no mistakes will be rectified without them.

Cancellation of advertisements because to take effect until after the advertisements have to take effect until after the advertisements have appeared once. Countermands must be received by 2:30 p.m. for daily issue and 6 p.m. Friday for Sunday Times.

The Times will not be responsible for more than one incorrect insertion of any advertisement ordered for more than one incorrect insertion of any advertisement ordered for more than one time. WANT-AD COLLECTION BOXES
